The image shows two screenshots of the GitHub Desktop application interface.

Top Screenshot: 'Let's get started!' screen

- Header:** File, Edit, View, Repository, Branch, Help
- Main Content:**
 - Let's get started!** Add a repository to GitHub Desktop to start collaborating.
 - Buttons:**
 - Create a tutorial repository...
 - Clone a repository from the Internet...
 - Create a New Repository on your hard drive...
 - Add an Existing Repository from your hard drive...
 - ProTip!** You can drag & drop an existing repository folder here to add it to Desktop.
 - Your repositories:** Filter your repositories (search bar), Refresh button. List: Yoshicbtis75/pagi_web.
- Decorative:** GitHub Octocat logo, floating icons (bell, magnifying glass, etc.).

Bottom Screenshot: 'No local changes' screen

- Header:** File, Edit, View, Repository, Branch, Help
- Repository Info:** Current repository: pagi_web, Current branch: main, Publish branch: Cannot publish unborn HEAD.
- Changes:** 0 changed files.
- Main Content:**
 - No local changes** There are no uncommitted changes in this repository. Here are some friendly suggestions for what to do next.
 - Suggestions:**
 - Open the repository in your external editor (Select your editor in Options, Repository menu or Ctrl Shift: A) - Open in Visual Studio Code
 - View the files of your repository in Explorer (Repository menu or Ctrl Shift: F) - Show in Explorer
 - Open the repository page on GitHub in your browser (Repository menu or Ctrl Shift: G) - View on GitHub
- Commit Panel:** Summary (required), Description, Commit to main.

Recent activity

When you take actions across GitHub, we'll provide links to that activity here.

The home for all developers — including you.

Welcome to your personal dashboard, where you can find an introduction to how GitHub works, tools to help you build software, and help merging your first lines of code.

Start writing code

Start a new repository

Collaborate on code with others and track your work in a repository.

Create a new repository

Create your profile README

Create a file in a repository that tells the GitHub community who you are.

Create a README

Contribute to an existing repository

Find repos that need your help

Use tools of the trade

Write code in your web browser

Use the github.dev web-based editor from your repository or pull request to create and commit changes.

Install a powerful code editor

Visual Studio Code is a multi-platform code editor optimized for building and debugging software.

Set up your local dev environment

After you set up Git, simplify your dev workflow with GitHub Desktop, or bring GitHub to the command line.
